

## Inside the Fall

Katatonia

All noise that breaks my head  
I run along the water  
you didn't really notice  
I've left and gone away

You're like waiting  
Uncurable disease  
Left me waiting  
Inside the fall

All waves that traps my breath  
I should be in your sight  
But you didn't really notice  
That I've left and gone away
