

Don't Count Me Out

Kate Voegele

Don't count me out, not now
No way, no how, not yet
Won't let you down, don't give up
I'm too strong, too tough, too proud
I've still got so much left, so don't count me out yet

I've done my share of hurting, can almost say it's worth it
You've seen behind the curtain, you know how my story goes
All the crazy versions, all the twist and turns
And all the bridges burning, oh, please don't, please

Don't you count me out, not now
No way, no how, not yet
Won't let you down, don't give up
I'm too strong, too tough, too proud
I've still got so much left, so don't count me out yet

When my life's all out of order, I need you in my corner
I need to know that you're a friend when it's against the odds
And I'm against the wall, it's me against the world
And everyone else has but don't

Don't you count me out, not now
No way, no how, not yet
Won't let you down, don't give up
I'm too strong, too tough, too proud
I've still got so much left

Don't count me out, not now
No way, no how, not yet
Won't let you down, don't give up
I'm too strong, too tough, too proud
I've still got so much left, oh, don't count me out yet
Don't, don't you count me out yet
