

The Road Is Calling

Katie Armiger

Every day's the same, every day's the same
Every day, every day's the same

Get off the telephone, let's go
The highway wants to play
Well, I'm buried and busy, too busy to break away
Don't you want to explore?
Well, it's hard to find and have adventures stuck indoors

Baby the road is calling
So let go, and fall in
Roll the windows down, turn the radio up
And push the pedal in
Cause, baby, the road is calling

The sunsets perfect parked here by a beach at Key Largo
It'd be great coming up on the Carolina coast
Fire up those headlights
We can make it if we drive all night

Baby the road is calling
So let go, and fall in
Roll the windows down, turn the radio up
And push the pedal in
Baby, the road is calling

Baby the road is calling
So let go, and fall in
Roll the windows down, turn the radio up
And push the pedal in
Baby, the road is calling
