

I Don't Mind

Katie Herzig

I don't mind if the future isn't clear
Please rewind to see the madness disappear

We pay the way to make it right
We have the courage to survive
I won't forget to hold it dear
You hold the water in your hand
You hope that you will understand
How wonderful you have it here

We don't need another wall too tall to climb
We've got time to spread the love we'll leave behind

We pay the way to make it right
We have the courage to survive
I won't forget to hold it dear
You hold the water in your hand
You hope that you will understand
How wonderful you have it here
How wonderful you have it

We pay the way to make it right
We have the courage to survive
I won't forget to hold it dear
You hold the water in your hand
You hope that you will understand
How wonderful you have it here
You hold the water in your hand
You hope that you will understand
How wonderful you have it here

I don't mind if the future isn't clear
Please be kind to see the madness disappear
