

# I Was Wrong

Keb' Mo'

Wait a minute baby  
Don't leave just yet  
I can explain baby  
But it looks like the more I talk  
The madder you get  
It's not what you think it is  
Trust me, I wouldn't do you no harm  
She means nothing to me  
The whole time I was imagining  
It was you in my arms  
You in my arms  
I was wrong  
And I admit it  
My explanations  
Don't seem to get it  
I was wrong  
And my heart can't take it  
If you leave me now  
I'm not gonna make it  
I'm not gonna make it-no  
What about the good times baby  
What about all the fun we had together  
It meant a lot to me baby  
It must have meant something to you  
Well ok, I see your point  
But baby please  
Don't let a little thing like this come between us  
'Cause our love is bigger than this  
It's more than this  
It's bigger than the universe  
It's bigger than life  
I was wrong  
And I admit it  
My explanations  
Don't seem to get it  
I was wrong  
And my heart can't take it  
If you leave me now  
I'm not gonna make it  
I'm not gonna make it-no  
I was wrong  
And I admit it  
My explanations  
Don't seem to get it  
I was wrong  
And my heart can't take it  
If you leave me now  
I'm not gonna make it  
I'm not gonna make it-no
