## Loola Loo

(Huh) I'm looking out my window Feeling kinda blue I aint heard from my baby Did she find somebody new

So I called up her number And her number had changed So I climbed up to the mountain And I screamed out her name

I said hey, hey, hey, hey My, my, Loola-loo Loola-loo don't leave me I will do anything for you Loola-loo you make me feel so fine Loola-loo I need you Don't take your love away Loola-loo, oh woman don't make me cry Don't make me cry

I stood out on the corner I walked up and down the street Looking for my Loola With that smile so nice and sweet.

I'm not going to hide it My love just keeps on growing Cos she looks so good to me Wether she's coming or she's going

I said hey, hey, hey, hey My, my, Loola-loo Loola-loo don't leave me I will do anything for you Loola-loo you make me feel so fine Loola-loo I need you Don't take your love away Loola-loo, oh woman don't make me cry Don't make me cry

Well maybe she just needs some time alone Or maybe my little Loola's heart Has suddenly turned to stone

I cant give up on Loola I've got to take a stand So I wrote this little letter And I gave to the postman It said Baby, please call me Please drop me a line Cmon throw an old dog a bone I need to know if you're still mine

I said hey, hey, hey, hey My, my, Loola-loo Loola-loo don't leave me I will do anything for you Loola-loo you make me feel so fine Loola-loo I need you Don't take your love away Loola-loo, oh woman don't make me cry Don't make me cry

My, my, Loola-loo Loola loo My, my, Loola-loo
