

Open Invitation

Keith Sweat

Listen

Anything you want I got it

Anything you need I got it

Treated you just like you were

The only one in my world

But you went away my lady

Come on back to me my girl

I thought you're gonna be my one and only girl

It's opened invitation

You just got to get here

I got everything you need baby

Just get here

I already got you a ticket

It's on the way let me know when you get it

It's opened invitation

You just got to get here
