

# MUSCLE MEMORY

Kelsea Ballerini

(Uh huh)  
(Uh huh)  
(Uh huh)

Your hair's a little longer  
(Uh huh)  
How long will you be back in town?  
(Uh huh)  
Are you still drinking that Jack and water?  
(Uh huh)  
Why don't you let me buy you this next round?

I can feel my heart beating faster every time you get close  
I can pick you out of a lineup, baby, even with my eyes closed

Oh, something I can't control comes over me  
My hands know just where to be  
It's muscle memory  
And yeah, my body won't forget our history  
We fall back so easily  
It's muscle memory  
Uh huh (Uh huh)  
When it comes to you and me  
Uh huh (Uh huh)  
I know just what you need  
Uh huh

Do you still got that Silverado?  
(Uh huh)  
For old time's sake let's take a ride  
(Uh huh)  
Tonight is already on autopilot, baby  
Let's ride the long way home tonight  
That's right

Every little thing comin' out of your mouth, I like how it sounds  
We've set it in motion and there ain't no slowin' it, even if we tried now

Oh, something I can't control comes over me  
My hands know just where to be  
It's muscle memory  
And yeah, my body won't forget our history  
We fall back so easily  
It's muscle memory  
Uh huh (Uh huh)  
When it comes to you and me  
Uh huh (Uh huh)  
I know just what you need  
Uh huh  
(Uh huh)

Knew how this was gonna end up before you said hello  
So magnetic, every time we let ourselves go back down that road

Oh, something I can't control comes over me  
My hands know just where to be  
It's muscle memory

And yeah, my body won't forget our history  
We fall back so easily  
It's muscle memory  
Uh huh (Uh huh)  
When it comes to you and me  
Uh huh (Uh huh)  
It's practice done perfectly  
Uh huh (Uh huh)  
Yeah, I know just what you need  
Uh huh (Uh huh)  
It's muscle memory  
Uh huh

Your hair's a little longer  
How long will you be back in town?
