

# Not Before You

Kem

I been thinking  
That you're the only reason  
That I've changed  
Hey baby  
There's no mistaking  
This is our season  
Or is it just fate, fate, fate  
Hey Girl

Have I told you, clearly what your love means to me  
As I hold you near me  
Girl, I'm where I want to be

Ain't nobody here seen love like this before  
We gon' let the light come shining through  
Ain't nobody here seen love like this before  
Before you, you, you  
Hey girl  
Not before, not before you, you, you  
Hey baby

Think I been falling, falling, falling  
I'm down on my knees in your love  
Oh girl  
Strangers calling, calling, calling  
But they don't know a thing about us  
Hey baby  
Girl, I want to  
Please you in every single way  
And my heart aches for you  
More and more each day  
Every moment with you  
It's a miracle that woman I'm your man  
Yeah, yeah, yeah

Ain't nobody here seen love like this before  
We gon' let the light come shining through  
Ain't nobody here seen love like this before  
Not before you, you, you

Ain't nobody here seen love like this before  
We gon' let the light come shining through  
Ain't nobody here seen love like this before  
Not before you, you, you

Not before, not before you, you, you  
Oh baby
