

## With You In My Life

Kem

It was now or never, baby  
Had to find a better way to live  
And unchain this heart of mine  
I've never been so satisfied in my life  
In my life

I've got a love I've never had  
And the faith to make it last  
I'm so much better with you in my life

So much better  
With you in my life, baby  
Hey girl  
Ooh, ooh, ooh

Boy money don't make you a man  
You said love was all I had to give  
And any fool could see why  
You are the moon and the sunrise of my life  
Of my life

I've got a love I've never had  
And the faith to make it last  
I'm so much better with you in my life

So much better, better, better  
With you in my life  
It's heaven on earth  
I don't give a damn about what they say of love  
You are my girl  
With you in my life, ooh, it all makes sense  
And don't you know I feel alive  
It's a whole other world  
I'm a man not afraid of his heart anymore  
And you are my girl  
I can see things growing wild and free  
With you in my life  
Ooh, woo, baby

With you in my life  
Baby  
Hey girl  
Ooh
