

Red Man

Kenna

Voice too loud to hear
Laugh too hard to feel
When I fall asleep
I'm a puppet cutting strings

When your eyes
Open large and wide
In a different light
Eyes open for the sun
In a different time

Red man's got you crazy, sad, sad
Life is not a daisy, sad, sad
Come on in and save me, come on, come on
I don't mean to bring you down
I don't mean to bring you down

Legs too weak to walk
We live to crawl
Oh, as I fall on my knees
I'm a puppet cutting strings

When your eyes
Open large and wide
In a different light
Eyes open for the sun
In a different time

Red man's got you crazy, sad, sad
Life is not a daisy, sad, sad
Come on in and save me, come on, come on
I don't mean to bring you down
I don't mean to bring you down

Love lift me high
Heal me tonight
We're gonna try and make it

Love lift me high
Give me the sign
We're gonna live forever

Love lift me high
Heal me tonight, yeah
Love lift me high
Heal me tonight

Red man's got you crazy
Life is not a daisy
Come on in and save me, come on
I don't mean to bring you down
I don't mean to bring you down
