Red Man

Voice too loud to hear Laugh too hard to feel When I fall asleep I'm a puppet cutting strings

When your eyes Open large and wide In a different light Eyes open for the sun In a different time

Red man's got you crazy, sad, sad Life is not a daisy, sad, sad Come on in and save me, come on, come on I don't mean to bring you down I don't mean to bring you down

Legs too weak to walk We live to crawl Oh, as I fall on my knees I'm a puppet cutting strings

When your eyes Open large and wide In a different light Eyes open for the sun In a different time

Red man's got you crazy, sad, sad Life is not a daisy, sad, sad Come on in and save me, come on, come on I don't mean to bring you down I don't mean to bring you down

Love lift me high Heal me tonight We're gonna try and make it

Love lift me high Give me the sign We're gonna live forever

Love lift me high Heal me tonight, yeah Love lift me high Heal me tonight

Red man's got you crazy Life is not a daisy Come on in and save me, come on I don't mean to bring you down I don't mean to bring you down
