

Pressure

Kenny Lattimore

You know it's about that time
Lay it on me, so heavy like the bass line
Keep me so cool like the winter
No shame, serve it up, need your dinner, baby

Like a nice breeze through them summer trees
Get a quick trip in overseas
Pressure hard, fired up like a diamond, baby
You're my star, I go blind 'cause you shine crazy, ooh

Every time you leave me, baby, I feel used (I feel used)
Give it to me so good, can't forget you're all mine, you're all mine,
oh
Don't give that good love to nobody (don't you dare)
When you call, I'll pull up every time

Ooh, it's just that good, oh, it's pressure
Spent a lot of time, no I can't deny, it's pressure
Oh, oh-oh, oh-oh (oh-
oh, it's pressure) let me get a hit of that, baby
Ooh, you're my medicine, I need my pressure

Gotta put it all in perspective, yeah
Can't even wrap my head round the things you do
Do it so good, oh my (oh my)
Way I fiend for you, gotta be a crime, no lie

Take me up high, babe, way up
Promise I ain't never looking down, baby
Keep me dancing, no headlights
Stop playing with it, no I need to get it right

Every time you leave me, baby, I feel used (I feel used)
Give it to me so good, can't forget you're all mine, you're all mine,
baby
Don't give that good love to nobody (don't you dare)
When you call, I'll pull up every time

Ooh, it's just that good, baby, oh, it's pressure (oh, it's pressure,
yeah)
Spent a lot of time, and I can't deny, it's pressure
(Ooh, it's good to me) oh, oh-oh, oh-oh (oh-
oh, it's pressure) let me get a hit of that, baby
Girl, you're my medicine, I need my pressure

(Oh, babe)
I feel used (oh babe)
Don't you dare
Don't you dare

Ooh, it's pressure
