

# What's Goin' Down

Kenny Wayne Shepherd

Time's a wastin' now  
And I ain't got no more time to play  
Everything is changin' now  
Pretty soon it's all gone away...gone away

Can we make the changes now  
You know there's no other way  
Now's the time, and the time is now  
It's not the why, it's just the how

Have you looked around my friend  
And really seen what's goin' down  
Take a look into the sky  
And lay your hand upon the ground  
and i ask of you good neighbor  
for, for a life-long favor  
It is my faith I put in you

Can we make the changes now  
You know there's no other way  
Now's the time, and the time is now  
It's not the why, it's just the how

Have you looked around my friend  
And really seen what's goin' down  
Take a look into the sky  
And lay your hand upon the ground  
and i ask of you good neighbor  
for, for a life-long favor  
It is my faith I put in you
