

Easy now
Don't wanna break it, you cant buy it
Just read my mind
Under the lights so verified here
Leaving town, in a hearse for five and counting
Even now,
I pick myself to check my doubt and
You show me so much love
You show me so much pain
If all men are created equal, then who are all these v-i-people?
You show me so much love
You show me so much pain
If all men are created equal, then who are all these v-i-people?
Leave me out
Dont???? and i still taste it
Evil eye
Once you were cool but now you're colder
I wont tell the world 'cause they won't hear it
You show me so much love
You show me so much pain
If all men are created equal, then who are all these v-i-people?
You show me so much love
You show me so much pain
If all men are created equal, then who are all these v-i-people?
All i ever wanted was a chance to prove myself so let me in
Won't let you win
Show me so much love
Show me so much pain
If all men are created equal, then who are all these v-i-people?
You show me so much love
You show me so much pain
If all men are created equal, then who are all these v-i-people?
You show me so much love
You show me so much pain
If all men are created equal, then who are all these v-i-people?
Who are all these v-i-people?
Who are all these v-i-people?
