

# Blood from the Bandit

Kim Carnes

Lightning strikes more than twice  
Thru the clouds to break the ice  
And show us something better  
We all chose to compromise  
We kill out skills we robotize  
Acid waste draws kids and flies  
And diamonds turn to granite

Number one  
Money buys anything anytime  
Number one  
The absurd the sublime  
Look at all the things we take for granted  
Blood from the bandit

Look at all the things we take for granted  
Blood from the bandit

Number one  
Money buys anything anytime
