

# Hullabaloo

Kim Mitchell

Big rock-n-roll get down deep in the big city hullabaloo  
[?] hip uptown oooh  
Wants to dance alone when nobody stared  
Jumpin' up and down when nobody cared  
Listen, listen to those crazy drums call

Let the words of a poet put a voice on her lips now  
Take a walk on that wild guitar  
It's such a wild guitar

There a lot weekend doin' on this hullabaloo  
Honey's on the dance floor sweatin' on a Saturday night  
Showin' off her sunburn

Let's get upside down, you know the way we like to do  
Limbo solo now on the beach is the best we can do  
Standin' all alone will take us there  
Standin' all alone we'll move nowhere  
Listen, listen to those crazy drums call

There a lot weekend doin' on this hullabaloo  
Honey's on the beaches, Monday back on old "TO"  
Showin' off her sunburn  
There a lot weekend doin' on this hullabaloo  
Come on cruise the music, party's just a heartbeat away  
We can make the world turn

Heads will fly, heads will shake  
Stars will fall and the earth will quake  
It feels so go and it feels so right  
It's rockin-n-rollin in paradise
