

Back Street Joe

Kim Wilde

Dancing with Back Street Joe
That was a time I loved
When we were kids so young
So long ago

Dancing with Back Street Joe
Back in a time I loved
We used to move all night
That was a time to know

There comes a time in your life
When you just wanna break free
But now I wanna go back
I wanna have him with me

Dancing with Back Street Joe
We used to want that sound
And everytime it played
We used to hang around

There was music and
There was rhythm and
There was something I can't explain
Out of nowhere he'd
Move his shoulder
And make you feel you could
Live again

Then came a moment in time
When I just had to be free
But now I wanna go back
I wanna go back and see
That look in his eyes again
And now on the streets
I look for you Joe

Dancing with Back Street Joe
Back in the streets I love
We used to dance all night
Was it so long ago ?
