Back Street Joe

Kim Wilde

Dancing with Back Street Joe That was a time I loved When we were kids so young So long ago

Dancing with Back Street Joe Back in a time I loved We used to move all night That was a time to know

There comes a time in your life When you just wanna break free But now I wanna go back I wanna have him with me

Dancing with Back Street Joe We used to want that sound And everytime it played We used to hang around

There was music and
There was rhythm and
There was something I can't explain
Out of nowhere he'd
Move his shoulder
And make you feel you could
Live again

Then came a moment in time When I just had to be free But now I wanna go back I wanna go back and see That look in his eyes again And now on the streets I look for you Joe

Dancing with Back Street Joe Back in the streets I love We used to dance all night Was it so long ago ?
