

C'mon Love Me

Kim Wilde

There's an endless sky and
It's just you and I
You're close to me
We tried to say goodbye but
But we can't be that strong and let it be
Now I know life's changed
And we can't expect to have things like they were before
But you want me, I want you
And there's nothing left for us to do
Before the night is through now

C'mon c'mon c'mon
C'mon c'mon c'mon
And love me, love me
C'mon c'mon c'mon
C'mon c'mon c'mon
And love me, love me

We don't close our eyes we're
Looking deep inside and move so slow
Ooh this is making love it
Feels so good
Oh baby don't let go
When the morning comes
We'll pray the dawn could never break another day
Then we'll kiss, say goodbye
And tomorrow I'll be on my way
But before we're through now

C'mon c'mon c'mon
C'mon c'mon c'mon
And love me, love me
C'mon c'mon c'mon
C'mon c'mon c'mon
And love me, love me
