

Janine

Kim Wilde

Janine - what's going on
Janine - I know that something sure is wrong
there's lights out on the road
And they're searchin' for you

Janine - life wasn't fair
Janine - when you got home and no-one cared
But running from your life
You let the vultures get through
And they feed on you, they feed on you

Chorus:
So what you gonna do when the lights burn out Janine
What you gonna do when your light burns out

Janine - you want the truth
Janine - you'll find the pressure's now on you
You wanted all the world
But they've taken it all
And they're bleeding you, they're bleeding you

So, what you gonna do when the lights burn out Janine
What you gonna do when your light burns out

Heh Kid, don't hesitate
Don't stick around now
I bet you can hardly wait
Oh what a time I'll give to you
But it's never true

Janine - you'll soon be there
Janine - you're on a wing and a prayer
But Angels love their own
And they're reaching out for you

Janine Oh Janine
