

Real Life

Kim Wilde

I wanna know if it's real love
Do you feel the same?
I wanna know if you're calling
Out of hope or pain?
I wanna know if real love
Never fades away
I wanna know how it ends

'Cause you've got a story to tell
With tears on every page
There's so much left to say and do
But I know
That the story's gonna change
If I could write it all again
I'd save the final page for you

I wanna start a new chapter
I wanna write some more
I wanna know if your character
Feels anger or remorse
I wanna change the ending
From tragic to romance
I wanna learn how to read you

'Cause you've got a story to tell

Do you know this isn't fiction
Do you know this story's true
Do you realise this is real life
Do you know that I still love you
Do you know that I still do
Do you realise this is real life

I wanna know if real love
Never fades away
I wanna know how it ends

'Cause you've got a story to tell

Do you know this isn't fiction?
'Cause you know I got a story to tell
It's not for anybody else
I read it all tonight
Each word to you
