Funny what fate can bring you And the things that it can do Funny how life can change you When you least expect it do

I wasn't into anyone
I danced in a sea of faces
I wasn't into anything
But baby you know
Together we're...

So right
The touch that I get from you's incredible
So right
The touch that I get
When I look at you

Maybe the touch you give me Is the look I get from you Maybe the spell it's weaving Is the way you feel it too

Maybe you'll stop and walk away Don't look at me to follow I wouldn't run for anyone But baby you know Together we're ...

So right
The touch that I get from you's incredible
So right
The touch that I get
That I get from you

Whatever it is we've got Well maybe we could find out more about it Baby we'll create this feeling Anytime, anytime

I wasn't into anyone
I danced in a sea of faces
I wasn't into anything
But baby you know
Together we're ...
