I'll be true
I won't lie baby
Trust me when I say
You're asking me where is it we go from here
The answer is open in my mind
Who knows where we'll end our journey
Love is a lesson
We're still just learning
But one thing you can be sure of is

I'll be true
I won't lie baby
I'll never lie to you
I'll be true
Trust me when I say
True to you

So many people make the same mistakes Giving promises they can't keep And after their hearts are broken With words they both wish had never been spoken And lies that they pin their hope on but

I'll be true
I won't lie baby
I'll never lie to you
I'll be true
Trust me when I say
True to you

Love and honesty is what you're gonna get from me Every step of the way You can trust me, when I say

I'll be true
I won't lie baby
I'll never lie to you
I'll be true
Trust me when I say
True to you

I won't waste your time baby
