

## Victim

Kim Wilde

Back in my younger days  
Decided to break away  
Get out the door find a place to stay  
The folks took it bad you see  
The pride in the family  
Guess they expected a nurse some day

But we were out there and gunnin'  
Fuelled up and runnin'  
Out on the highway  
Looking for something  
Your crazy world does nothing for us  
And if we shout you just ignore us  
So no more push and shove  
The victims of your love

It was back in my younger days  
Decided to break away  
Get out the door find a place to stay

Cos we were out there and gunnin'  
Fuelled up and runnin'  
Lost on the highway  
Looking for something  
Your crazy world does nothing for us  
And if we shout you just ignore us  
So no more push and shove  
The victims of your love
