

# Honey

King Gizzard & The Lizard Wizard

You taste like honey, all warm and runny  
Kinder than a candy, effervescent shandy  
Days are ever sweeter when I wake up near ya  
The world we're in is broken and you're the magic potion

Like the wind on a sail I'll steer you along  
And the germs outside I'll keep you from  
Like the hail in the morn' I'll sing you a song  
While the mead I make can brew for you

You taste like honey  
You taste like honey  
You taste like honey

Life is what you do in it while you're floating through it  
Cut the rope some slack then while we get the knack of it  
We're endless motion, drink to that notion  
Buoyant is your spirit, gotta keep me near it

Like the wind on a sail I'll steer you along  
And the germs outside I'll keep you from  
Like the hail in the morn' I'll sing you a song  
While the mead I make can brew for you

You taste like honey  
You taste like honey  
You taste like honey

You taste like honey  
You taste like honey  
You taste like honey

Life is what you do in it while you're floating through it  
Cut the rope some slack then while we get the knack of it  
Days are ever sweeter when I wake up near ya  
The world we're in is broken and you're the magic potion
