

Oddlife

King Gizzard & The Lizard Wizard

All this rock n roll is bad for my ears. Lemme tell you one thing about my life. It's weird. All this head banging is bad for my brain. Lemme tell you one thing about my life. It's strange.

Sugarplum fairy dances now. Echoed feet on the hallowed ground. Energy peaks on the voyagers crown. Back to the bus for another round. Managing feats by managing feet. Head of the hydra tastes the breeze. Conduit sees from the living room suite. Boredom is what boredom breeds you see.

So deranged. Life is strange. It's human odd life.

All this indecision in anthropoids. Lemme tell you one thing about our life. It's odd. All this wire walking upon the knife. Lemme tell you one thing about human odd life.

Sugarplum fairy dances now. Echoed feet on the hallowed ground. Energy peaks on the voyagers crown. Back to the bus for another round. Managing feats by managing feet. Head of the hydra tastes the breeze. Conduit sees from the living room suite. Boredom is what boredom breeds you see.

Bitumen crossroad knife. It's human odd life.

No concept of geography. I wake up and I'm still fatigued. I'm drinking 'til I'm dead asleep. Riding high 'til I'm back home in one piece. Another carpark in the middle of nowhere. Another promoter hanging in your hair. Another backstage green room to prepare. Its an odd life gotta be aware.

It's an odd life til you get it right. It's an odd life til you get in the stride. It's an odd life til you get it right. It's an odd life til you get in the stride...

Odd life. Odd life. Odd life...
