Pop In My Step

King Gizzard & The Lizard Wizard

Gonna shake the world, shake the world off my back I'm gonna hold my head high with the sun on my track

Today I've got no troubles in sight

Gonna put some pop in my step when I walk I'm gonna show my mood off when I walk and I talk

Today I've got no troubles in sight
Gonna turn around, make everything that was wrong into right

Gonna look past things that I know I'll regret Cause life's a little too short for those worries You can bet on me

Today I've got no troubles in sight Gonna turn around, make everything that was wrong into Right, right

When I wake up late in the morning, you'll know It takes a few more hours before I'll know

Today I've got no troubles in sight

Gonna turn around, make everything that was wrong into
Right, right, right
