

## The Bird Song

King Gizzard & The Lizard Wizard

To a bird, what's a plane?  
A shiny flying elephant  
To a tree, what's a house?  
Is that even relevant?  
Does a bird know its name?  
To a bird, what's a plane?  
To a cow, what is a car?  
It's a deadly predator  
To a bird, what's a plane?  
A shiny flying elephant  
To a tree, what's a house?  
Can it think at all?  
Does a bird know its name?  
To a bird, what's a plane?  
To a cloud, what is a breeze?  
It's a predetermined sneeze  
To a seal what is real?  
Surely more than it can feel  
To a bird, what's a plane?  
A shiny flying elephant  
To a tree, what's a house?  
Is that even relevant?  
Does a bird know its name?  
To a bird, what's a plane?  
To a bird, what's a plane?
