

# The River

King Gizzard & The Lizard Wizard

Once you're in the zone  
The river flows down like a full stone  
Water is your bed  
The ripples cushion your head

I can't believe it, it is frozen  
It's not the first time, I had noticed  
She will deliver, I am floating  
Trust in the river

I had floated down, floated down  
Floated down, floated down  
Floated down, down down, down down, down down (The river)  
Down, down down, down down, down down (The river)

Once you're where I led  
It will be clear what I have said  
Float without a home  
The river flows like another long road

I can't believe it, it is frozen  
It's not the first time, I had noticed  
She will deliver, I am floating  
Trust in the river

I had floated down, floated down  
Floated down, floated down  
Floated down, down down, down down, down down (The river)  
Down, down down, down down, down down (The river)  
Down, down down, down down, down down (The river)  
Down, down down, down down, down down (The river)

Frozen over home  
The fading light shines on the white stone  
Melt your little zone  
And sink into the waterfall flow

I can't believe it, it is frozen  
It's not the first time, I had noticed  
She will deliver, I am floating  
Trust in the river

I had floated down, floated down  
Floated down, floated down  
Floated down, down down, down down, down down (The river)  
Down, down down, down down, down down (The river)  
Down, down down, down down, down down (The river)  
Down, down down, down down, down down (The river)
