

Wild Ones

Kip Moore

We've been waiting all week
Been waiting on the weekend
To crawl out of the shadows
With the ones your mama said run from

The ones your daddy kept you from
Now we're all on the loose
And we are here

Everybody raise your glass
(Hey, hey, hey)
Pick it up and throw it back
Grab ahold of your honey
And everybody get a little lovin'
A little touchin'
A little kissin' and a huggin'
Do a little lovin'
A little touchin'
A little kissin' and a huggin'

Cause we don't need no sleep tonight
Everybody's bumpin' to the beat just right
Worry 'bout tomorrow when tomorrow comes
Tonight we're just worried about having fun
Cause we're the wild ones, yeah
You know that we're the wild ones

We're gonna always do it our way
And we don't care what nobody say
Cause we're the wildcats
We're the fighters
We're the midnight up all nighters

So everybody raise your glass
(Hey, hey, hey)
Pick it up and throw it back
Grab ahold of your honey
And everybody get a little lovin'
A little touchin'
A little kissin' and a huggin'
Do a little lovin'
A little touchin'
A little kissin' and a huggin'

Cause we don't need no sleep tonight
Everybody's bumpin' to the beat just right
Worry 'bout tomorrow when tomorrow comes
Tonight we're just worried about having fun
Cause we're the wild ones, yeah
You know that we're the wild ones

Everybody get a little lovin'
A little touchin'
A little kissin' and a huggin'
Do a little lovin'
A little touchin'
A little kissin' and a huggin'

Cause we don't need no sleep tonight
Everybody's bumpin' to the beat just right
We'll worry 'bout tomorrow when tomorrow comes
Tonight we're just worried about having fun
Cause we're the wild ones
