

All I Want

Kirsty Hawkshaw

I want to wake up in the morning
Walk over to the window
I want to see the ocean

I want to walk next to you
Feel the love you're setting free
Wrap itself around me like a blanket

I look into my baby's eyes
So I can be for just one minute
The child I never was

I want to make up
I want to walk right up to me and scream "You know,
There's a reason for everything"

All that I want
All that I need
Is to know it's real

In all I dream
In the way I feel
Got to know it's real

I want to wake up in the morning
Walk over to the window
I want to feel emotion

No one to pull through this
Fly above the house and let time slip
Only gets worse when you fight it

Want to know what happens when I die
So I can know why I feel fear and love
For the child I never knew

I want to be brave
Want to walk right up to me and scream "You know,
There's a reason for everything"

All that I want
All that I need
Is to know it's real

In all I dream
In the way I feel
Got to know it's real
