

Happiness Hill

Kitty Wells

I found a place called Happiness Hill
Where the songbirds sing and there's no whippoorwill
Come take my hand and tell me
You will come go with me up Happiness Hill

Come go with me to a place that I know
Where the dogwood bloom and wild roses grow
To a place that I found where is peaceful
And still come go with me up Happiness Hill

Come go with me to a place that I know
Where the dogwood bloom and wild roses grow
To a place that I found where is peaceful
And still come go with me up Happiness Hill
