

Touch And Go Heart

Kitty Wells

Touch and go that's how your love is first you're mine and then
we're apart
Even though I know what your game is I still cling to your touch
and go heart
You only want my company when you are feeling blue
Just when I think you care a little there's someone new
Though I know how hopeless my chance is I'm just a slave for your
touch and go heart

Touch and go that's how...
