

# Come Alive

KJ-52

The truth is fun of me it's under my nose  
Answering my questions and redeeming my woes  
The more I try the less I find is making me whole  
You're the only one that I can truly call my home

You make me come alive come alive  
You make me come alive come alive  
You make me come alive come alive  
You make me come alive come alive

You made me come alive at the time when I was about to die  
Right about the time when my life was falling down inside  
But I'm about to cry thinking of all time I tried  
To make it but I'm breaking down down inside my pride  
So make come alive make me run and hide  
Under the shelter of your wings just when I come inside  
It's like I got the feeling really like I'm about to fly  
Spread my wings till I'm flying high and then I touch the sky  
When I think about how I was falling down at times  
When I'm looking back I can see it was your grand design  
You carried me through all the times that I had to climb  
I came alive and I survived so I had to say this time

You make me come alive come alive  
You make me come alive come alive

You make me come alive come alive  
You make me come alive come alive

You picked me up dust me off and put the breath inside  
I came alive like I just went from death to life  
And then I come to find I was revived hit me with the breath of life  
And I'm blessed to find that you always got me back in line  
Looking back in time I can see your hand in mine  
Walking with me every step I know it was your plan to guide  
And I'm blessed to find that even that the times I just denied  
You pulled me right back to me start over like you hit rewind  
It's divine intervention that put me in the vine  
I ain't never going back to the junk that I left behind  
And since I know the facts it's facts that I testify  
I'm a resurrect this time ever some I came to find

You make me come alive come alive  
You make me come alive come alive  
You make me come alive come alive  
You make me come alive come alive

You make me come alive come alive  
You make me come alive come alive  
You make me come alive come alive  
You make me come alive come alive

...
