

I just wanna love you like it Jim and Pam
Walk the beach, write your name up in the sand
Kiss your cheek while I hold your hand
I just wanna love you like Jim and Pam

My house a lot noise plus a lot of boys
Broken toys broken doors that just get destroyed
And let me make it clear dear, if I made a choice here
I wouldn't change thing, yeah I gotta lot of joy
I love the fact that you all righteous plus a little ratchet
Plus you crack me up every time I watch you dancing
And everything that happens babe I know you got my back and
So we just hanging, driving right just with the kids just laughing

And now we never take a picture right
25 pictures there ain't one we like
But I could do that just like every night
I'm glad to have you in my life by my side

I just wanna love you like it Jim and Pam
Walk the beach, write your name up in the sand
Kiss your cheek while I hold your hand
I just wanna love you like Jim and Pam
I just wanna love you like it Jim and Pam
Walk the beach, write your name up in the sand
Kiss your cheek while I hold your hand
I just wanna love you like Jim and Pam

I just want you standing close to me
Ain't that the way that it's supposed to be
We can roll around with my old CDs
You can hold to me just while you roll with me
And we may never ever get the mansion
But I got a hand that you can put your hand in
I'm glad you're there no matter what would happen
We prepared to make it whether feast or famine
Ain't nothing better than to see laughing
Might not get the cheddar or all the cash in
But we can stand here and just keep on dancing
God will take the picture, we just write the caption

I just wanna love you like it Jim and Pam
Walk the beach, write your name up in the sand
Kiss your cheek while I hold your hand
I just wanna love you like Jim and Pam
I just wanna love you like it Jim and Pam
Walk the beach, write your name up in the sand
Kiss your cheek while I hold your hand
I just wanna love you like Jim and Pam
