

## Outro: Happy New Years

KJ-52

For auld lang syne my dear  
For auld lang syne  
We'll save a cup of kindness yet  
Oh sing of auld lang syne

Last year was a tough year man a rough year  
But I got to stop and drop a little love here  
Cause what I lost it could never ever compare  
To everything I've found in the cross what he's done there  
And its so clear I come so far  
So bring on the new year on let's go off  
Ain't nothing gonna stop us now so go hard  
So let that old year go its time to go on  
Ain't nothing left to know but to know God  
He's in control and the shows gotta roll on  
Its been a tough ride so just hold on  
Its gonna get better man so say so long  
The past there and all your past fears  
And thank God that at least you come here  
And I'm a tell my wife now just to come near  
Let me get a little kiss when it hits the new year
