

# Shipwreck

Klangkarussell

I'm just lookin' for somewhere to rest my head  
Some place to call my bed when it gets dark, yeah  
Blackwater risin', even it knows I'm not done yet  
I'm still followin' what you said from a fresh start, yeah

A shipwreck on your shore  
I heard you long ago  
A Siren, a Siren song  
A shipwreck far from home  
I heard you long ago  
A Siren, a Siren song

Long ago  
Long ago

A shipwreck on your shore  
I heard you long ago  
A Siren, a Siren song  
A shipwreck far from home  
I heard you long ago  
A Siren, a Siren song

I'm feelin' kind of cold now  
My heart's been making strange sounds  
Come with me on the way down  
Just don't think about it  
I'm hearin' words that you say  
You're runnin' round in my head  
Come with me on the way down  
Just don't think about it  
Just don't think about it
