

I (Heart) Not

KMFDM

I heart you
I heart you not
I heart you
I heart you not

I heart you
I heart you not
I heart you
I heart you not

Arrow through the middle
Hit jackpot
Tie me up in riddles
A lover's knot
Stalk like a jackal out of sight
Shrouded in shadow for fear of light

I heart you
I heart you not
I heart you
I heart you not
I heart you
I heart you not
I heart you
I heart you not

My obsession is one you can trust
Blind idol worship at first blush
There's no limit to how far i'll go
You need to comprehend who's in control

I heart you
I heart you not
I heart you
I heart you not

Soul mate, enemy, have it your way
I'm open-minded, chose your game
Be afraid, don't know right from wrong
decide wisely but don't take too long

I heart you
I heart you not
I heart you
I heart you not
I heart you
I heart you not
I heart you
I heart you not

Put you on a pedestal or bury you in lies
I heart you
I heart you not
If there's no body then there's been no crime
I heart you
I heart you not

Don't try to run, there's nowhere to hide
Everything and all for you, my blood runs wild
There's no limit to how far i'll go
You need to comprehend who's in control

I heart you
I heart you not
I heart you
I heart you not
