There was a hearing
The rules were broken by one
Followed by another

The evidence was presented An overwhelming list of infractions

An overwhelming representation Of one's maladjustment to the system The hearing was about him About his attitude About his behavior

He is, he represents
No, he embodies the problem
If he is expelled, the problem
Will go away

Responsibility
Relationship
Mutuality
Our solution

A person with a problem
I believe there's no such thing
As a person with a problem
If there is a problem it's a problem with the system
The system of home and family
Of school and community

He is not in this alone He is not the problem

A reflection of the system
A mirror image of ourselves and our work

We acknowledge not all kids fit Our ancillary design And when they don't fit They become the problem

The problem
Expel the problem
Make it go away
Expel the problem
Make it go away, make it go away
Make it go away
