

Thrash Up!

KMFDM

You bring me up
You bring me down

You bring me up
You bring me down

Told me that you love me
But I'm not satisfied
I lost control of all my functions
Don't know what's wrong or what is right
If another woman driver gets machinegunned from her seat
You'll believe that I'm not joking
You'll have paid for my defeat

Coz' my dark satanic mind
Whispering secrets of a kind
Crazy things you do not know
All the feelings I don't show
You better run there's no more time
Or be the victim of my crime

You bring me up and down
You bring me up and down

You won't survive my day of judgment
It's a merciless attack
I'm not the guy to kid around with
Just a man that has been sacked

I always told you I would do it
Don't pretend to be surprised
You brought me up you brought me down
Now comes the time for you to die

Stop all that crying
You won't make me bend
I will be the terminator that brings your life up to it's end
Coz' my dark satanic mind
Whispering secrets of a kind
Crazy things you do not know
All the feelings I don't show
You better run there's no more time
Or be the victim of my crime
You bring me up and down
You bring me up and down

You bring me up and down
You bring me up and down
