

Tune You Out

Knuckle Puck

Why don't you shake me down till I come back around
Pushin' through the grapevine you never made a sound
Such a weird flex to say "My sun gave you the shade"
Thought for once that you could act your age

I'll tune you out
Till we all calm down

Watch me break
While you run around with nothing to say
You toss and then you turn in your sleep
It tears me up inside
I'll tune you out
Till we all calm down

We're wrecked to the Nth degree
Reflecting society
I expect in due time we'll see
There's nothing left to say

I'll tune you out
Till we all calm down

Watch me break
While you run around with nothing to say
You toss and then you turn in your sleep
It tears me up inside
I'll tune you out
Till we all calm down

Maybe, someday, you'll see it differently
Someday, you'll see, you still got so much to love
Maybe, someday, you'll want to resonate
Maybe, someday, someday, you'll see

Watch me break
While you run around with nothing to say
You toss and then you turn in your sleep
It tears me up inside
I'll tune you out
Till we all calm down
I'll tune you out
Till we all calm down
