

# All My Friends

Kodaline

And so it starts,  
We go back to your house  
We check the charts  
And start to figure it out

And if it's crowded, all the better  
Because we know we're gonna be up late  
And if you're worried about the weather  
Then you picked the wrong place to stay  
That's how it starts

And so it starts,  
You turn the engine on  
We set controls for the heart of the sun  
One of the ways that we show our age

And if the sun comes up, if the sun comes up  
If the sun comes up, then I still don't wanna stagger home  
Then it's the memory of our betters  
That are keeping us on our feet

You spent the first five years trying to get with the plan  
And the next five years trying to be with your friends again  
You're talking 45 turns just as fast as you can  
Yeah, I know it gets tired but it's better when we pretend

To tell the truth  
Oh, this could be the last time  
So here we go  
Like a sale force into the night

You drop the first ten years just as fast as you can  
And the next ten people who are trying to be polite  
You're blowing 85 days in the middle of France  
Yeah, I know it gets tired, only where are your friends tonight?  
Where are your friends, where are your friends tonight?

If you could see all your friends tonight  
If you could see all your friends tonight  
You know that we are your friends for life  
If you could see all your friends tonight

If you could see all your friends tonight  
If you could see all your friends tonight  
You know that we are your friends for life  
If you could see all your friends tonight

If you could see all your friends tonight  
If you could see all your friends tonight  
You know that we are your friends for life  
If you could see all your friends, all your friends tonight
