

The Evening

Kodamine

We lifted ourselves up
Went with the wind
Tonight I miss you
It's hard to begin
We'd hide in my attic
And paint on the walls
I'll never forget that
I'll remember it all

I wish you could be here
Just for the evening
I wish you could be here
To see what I'm seeing
'Cause we were just kids
And now I'm all grown up
Walking down water when the seas get rough
I wish you could be here
Just for the evening
Just for the evening

We go to a party
We poison our blood
We stay out of the dark weed
Get lost in the woods
Last night I was sleeping
And I had a dream
That you were still breathing
And living like now

I wish you could be here
Just for the evening
I wish you could be here
To see what I'm seeing
'Cause we were just kids
And now I'm all grown up
Walking down water when the seas get rough
I wish you could be here
Just for the evening
Just for the evening

I wish you could be here
Just for the evening
I wish you could be here (Wish you could be here)
Just for the evening (Just for the evening)
I wish you could be here (Wish you could be here)
To see what I'm seeing (See what I'm seeing)
'Cause we were just kids
And now I'm are all grown up
Walking down water when the seas get rough
I wish you could be here (Wish you could be here)
Just for the evening (Just for the evening)
Just for the evening
Just for the evening
I wish you could be here
I wish you could be here
