

# Follow the Waves

Kolohe Kai

Girl don't you worry 'bout a thing, ooh yeah  
I got a message I will sing to ya  
You got the questions, girl I'll give you the answers  
Baby there's no doubt about it  
Every time my heart beats faster with you

I see sunshine every time you pass my window  
A hundred ten times, my heart begins to speak  
My feelings fly when I get to have you by my side  
The pleasure is mine

I follow the waves and I follow the sunlight  
That leads me away and it leaves you at my side  
And maybe this day you'll stay with me always  
And begin to smile always, every day I'll show you love

Whoa, whoa

It's incredibly amazing, yeah yeah  
That I'm sitting next to my favorite girl in the world  
And baby while our hearts are blazing  
Please tell me, what did I do to ever deserve you

I see sunshine every time you pass my window  
A hundred ten times, my heart begins to speak  
My feelings fly when I get to have you by my side  
The pleasure is mine

I follow the waves and I follow the sunlight  
That leads me away and it leaves you at my side  
And maybe this day you'll stay with me always  
And begin to smile always, every day I'll show you love

Whoa, whoa  
Whoa, whoa

I've been waitin', contemplatin'  
Ready for the date we dedicatin'  
Girl baby real soon I'll drop the knee  
'Cause you and me make good company  
Feel like I'm flyin' when you're by my side  
I see in your eyes the prize of my bride  
Follow the waves, waves to your heart  
That's just where we'll start, yeah

I follow the waves and I follow the sunlight  
That leads me away and it leaves you at my side  
And maybe this day you'll stay with me always  
And begin to smile always, every day I'll show you love

Whoa, whoa  
Whoa, whoa

Just follow the waves  
Just follow the waves  
Follow the waves, yeah

The waves to your heart  
The waves to your heart  
That's where it all starts  
Baby you and me, follow the waves
