

Heartstrings

Kolohe Kai

You don't even have to try
Cause you're already mine
The way you light up the night
It's like a million fireflies
Baby you set a blaze
And all of the ocean
Can never take away your flame

Cause the stage was set
The moment we met
And building like a bass drop
You and me, feeling this beat
Oh oh

You're pulling on my heartstrings everyday
Wrapped around your finger
I just wanna linger
Listen to the sweetest melody
Baby, I'm yours
My heart is yours
Yours to play

Every time I go to sleep
It feels like I'm awake
I don't even have to dream
Just as long as we walk in paradise
Side by side
No rockstar like you, girl
Every kiss feels like hits oh yeah

And the stage was set
The moment we met
And building like a bass drop
You and me, feeling this beat
Oh oh

You're pulling on my heartstrings everyday
Wrapped around your finger
I just wanna linger
And listen to the sweetest melody
Baby, I'm yours
My heart is yours
Yours to play

Come on and play
Yeah, on my heartstrings

Baby girl, you move me like a symphony
And every time you smile I give up
(Every time you smile)
Oh every time you smile I give up, up, up

You're pulling on my heartstrings everyday
Baby just snap your fingers
And darling I will linger
And listen to the sweetest melody
Baby, I'm yours

My heart is yours
Yours to play

My heartstrings

My heartstrings
