

# Higher

Kolohe Kai

We've been kicking it cruising all this weekend  
Jamming while everybody's sleeping  
With nothing but stars as our ceiling  
And I can't wait until the morning lights dawning  
The scent of the sea has been calling  
Theres nothing like saltwater healing oh  
Now I believe I've been cleansed from the pressure  
So come ride with me we are free here forever

Cause I'm so in love with the ocean  
I feel the music of it's fire  
Cause it's beauty conquers all emotion  
And takes my joyful heart much higher  
Higher and higher [x3]  
Oh the music of the ocean takes me higher

I got a feeling that I don't wanna lose  
So light the fuse, oh yes you  
Please take me to a place where I can chase  
Mrs. Blue, Mrs. Blue  
I see the sun shining through them crystal waves  
Them crystal waves  
I hear her thunder as they dance away  
Into the night time yeah  
Now I believe I've been cleansed from the pressure  
So come ride with me we are free here forever

Cause I'm so in love with the ocean  
I feel the music of it's fire  
Cause it's beauty conquers all emotion  
And takes my joyful heart much higher  
Higher and higher [x3]  
Oh the music of the ocean takes me higher

Now I believe I've been cleansed  
I've been cleansed from the pressure  
So come and ride with me  
Yeah we can finally be together forever yeah

Cause I'm so in love with the ocean  
I feel the music of it's fire  
Cause it's beauty conquers all emotion  
And takes my joyful heart much higher  
Higher and higher [x3]  
Oh the music of the ocean takes me higher

Higher Higher Higher Higher [x4]
