

# When the Rain Falls

Kolohe Kai

I can see you're hurtin'  
Tell me oh tell me now is it worth it, no way  
I can see you're hoping  
Hoping and praying that someone throws you out a rope and saves you  
From your negative thoughts  
I know you feel lost girl  
But you don't gotta feel lost, girl

Cause I'll be with you when the rain falls  
You can hit me with that late call  
It doesn't matter if you're near or far  
Wherever you are  
I'll be there  
We can talk until the sunrise  
Dance until we see the stars shine  
I will love you 'till the end of time  
I'll be there  
I'll be there  
When the rain falls

I'll be there  
When the rain falls

I'll text a hundred times  
Just make sure you reply  
To tell me you're alright, baby  
Just know you're not alone  
When things are going sideways  
I'll be on that highway home, woah  
Ready or not my heart's never gon' stop  
'Till I light up the dark, for you  
Just don't give up so soon

Cause I'll be with you when the rain falls  
You can hit me with that late call  
It doesn't matter if you're near or far  
Wherever you are  
I'll be there  
We can talk until the sunrise  
Dance until we see the stars shine  
I will love you 'till the end of time

I'll be there  
I'll be there  
When the rain falls

I'll be there  
When the rain falls

I'll be there  
When the rain falls

It's hard to see the best ending  
That could possibly arrive  
In this crazy world we're living in  
It's a wonder who survives  
But in these dark times, we'll be shining

And over valleys, we can fly (high)  
So let's go dancing with the thunder  
Let the storm clouds roll down

Cause I'll be with you when the rain falls  
You can hit me with that late call  
It doesn't matter if you're near or far  
Wherever you are  
I'll be there  
We can talk until the sunrise  
Dance until we see the stars shine  
I will love you 'till the end of time  
I'll be there  
I'll be there  
When the rain falls

I'll be there  
When the rain falls

I'll be there  
When the rain falls
