

# My Body

Kool & The Gang

When the sky turns to black  
All of a sudden I get that love attack  
Without warning it says "Hello"  
It tells me that my sea is stormin'

I rub my hands up and down your spine  
Gotta let you know what's on my mind  
Lady, turn yourself around  
And give your love to me

[Chorus]

My Body, Body, Body, Body  
Wants your Body  
My Body, Body, Body  
Needs you  
My Body, Body, Body, Body  
Got to have your Body  
My Body, Body, Body  
Is Taylor made for you

On the beach - hangin' out  
Even at a party - Girl you turn me out  
It doesn't matter where we go  
When I get the feelin'  
I've gotta let it show

I rub my hands up and down your spine  
Gotta let you know what's on my mind  
Lady, turn yourself around  
And give your love to me

[Chorus X2]

Girl, let's take this ride  
Into the sunset, gonna make you sweat  
Lady, hold on tight - Get into the motion  
The motion baby

[Chorus]
