

Cold

Korn

(Go a-way)
They come for me
Discomforting
They make it feel like I'm a step away

(Go a-way)
From doing it
I'm thru with it
I'm tainted with suffering can't get thru it

(Go a-way)
They come for me
Discomforting
They make it feel like I'm a step away

(Go a-way)
From doing it
I'm thru with it
I'm tainted with suffering can't get thru it

Set the bait and I'm waiting
In a state of concentrating
I'm gonna knock this mothafucka down
Down, down-down-down
And there's a catch with this waiting
Alone my thoughts are overtaking
Do I got the strength to take this fucker down?

Deep in me
Is something
Talking shit
Pushing me
Cold

Cold-inside, lying deep
The father of hate
The endless nightmare I can never escape
The broken in flames
They call out my name
They dance in my dreams
While I scream out in pain

I'm on my way
This is the day
This is the time to break it down
Get out my way
Nothing can stay
This is the time to break it down

Alone I wait with the craving
I watch my step, I'm calculating
On how I'm taking this motherfucker down
Down, down-down-down
I don't know what I am thinking
Sometimes I feel like I am sinking
Into the ground I'll call my grave

Cold-inside, lying deep
The father of hate
The endless nightmare I can never escape

I'm on my way
This is the day
This is the time to break it down
Get out my way
Nothing can stay
This is the time to break it down
Break it down

Deep in me
Is something
Talking shit
Pushing me

I'm on my way
This is the day
This is the time to break it down
Get out my way
Nothing can stay
This is the time to break it down

I'm on my way
This is the day
This is the time to break it down
Get out my way
Nothing can stay
This is the time to break it down

(Go a-way)
They come for me
Discomforting
They make it feel like I'm a step away

(Go a-way)
From doing it
I'm thru with it
I'm tainted with suffering can't get thru it

(Go a-way)
They come for me
Discomforting
They make it feel like I'm a step away

(Go a-way)
From doing it
I'm thru with it
I'm tainted with suffering can't get thru it
